Subject : Fw: Gary C thinks Dennis Thompson is an excellent financial project professional

Hi Tina,

This is an introduction and pitch for my friend Dennis Thompson.

I worked with Dennis for 3 months at AT&T Wireless. Linda knows him well also. He is working at Wireless now, but thinks his role in the project may be winding down.

Dennis is REALLY good at database creation, data analysis and reporting. He knows how to structure messy data into high value information. He has an accounting degree, is a CPA and has over 20 years of experience mainly in database implementation and financial analysis.

When I have a question on Excel, Access or SQL, he's my "go-to" guy. I still use the manual that he wrote for us on the Wireless/Bechtel project on how to scrub and analyze massive amounts of data with Access and Excel.

Beyond all this technical stuff, he's really a nice guy and never hesitates to share his experience and knowledge.

So, there you have it. That's my pitch. You should get to know Dennis

Talk to later....Gary
